

Calculating square footage:

To calculate square footage of your countertop as accurately as possible it is best to divide the countertop into sections as shown above.

Countertop piece 1:	25 in x 87 in =	2,175 sq. in.	
Countertop piece 2:	25 in x 39 in =	975 sq. in.	
Countertop piece 3:	25 in x 37 in =	925 sq. in.	
Total countertop:		<u>4,075 sq. in.</u>	$\div 144 =$ 28.3 sq. ft.

Backsplash piece 4:	87 in x 4 in =	348 sq. in.	
Backsplash piece 5:	64 in x 4 in =	256 sq. in.	
Backsplash piece 6:	37 in x 4 in =	148 sq. in.	
Total backsplash:		<u>752 sq. in.</u>	$\div 144 =$ <u>5.2 sq. ft.</u>

Total in square feet: **33.5 sq. ft.**
